

We are delighted to advise that publications focused upon Pre-operative Assessment Practice in the U.K are now available.

The price of the book 'Two Steps Forward, One Step Back' which demonstrates successful models of pre-operative assessment practice and explores the role of technology can be ordered directly from Perigon Healthcare Limited is £15 including postage and packing. In due course you will also be able to purchase it via your local bookseller. We accept cheques, cash or requests to invoice your organisation.

Our second publication is a **Data Collection Workbook**. Available on CD this management tool will ensure you can evidence the effectiveness of your pre-operative assessment service and utilise the data collected to gain additional investment in your service. It has been described as 'impressive' by an executive team of a busy Acute Trust. *This is available also to purchase for £25 including postage and packing*

(Please also request an authors contribution form if you would like to submit your own work for consideration for our third publication due out in January 2008) publications@perigon.org.uk
